

# Germ-Savvy™

A new range of Rapesco germ repellent products.

Rapesco has developed a new product range to help improve hygiene wherever you are working. Our Germ-Savvy™ antibacterial agent is added to the external plastic parts during manufacture and provides protection for the lifetime of the product.

- Kills 99% of bacteria
- No price premium
- SGS / ISO approved

The work desk is often the worst affected when tested for bacteria.

By adding silver and zinc ions to the plastics, germ cells cannot develop and the germ dies before it can spread.

All products maintain the same high specifications and the Germ-Savvy™ range even includes our popular ECO products.

Same Great Build Quality
