

# Antimicrobial Coating Service

Getting you back to work quicker and safer

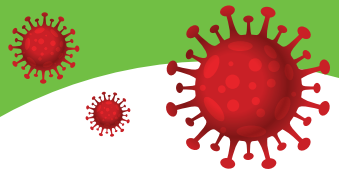

- Consultations
- Surveys
- Specialist On-Site Application
- Microbe Testing

Today, everyone is aware of viruses and bacteria, spread by touch. Antimicrobial coating gives your staff and clients reassurance that their environment is safer by helping protect them from infection. In addition, the business will benefit with less staff absenteeism into the future.

- ✓ **ANTIVIRAL**  
Against TGEV-Coronavirus (SARS-CoV model virus) and Influenza A.
- ✓ **FACILITATES CLEANING**  
By repelling liquid and dirt, whilst also preventing fingermarks.
